FOUNDED IN 2007

Suntree Electric was established on May 8, 2007, and has been focusing on new energy sector and overseas market.

SERVICE

Our mission is to provide best service to our customers and concentrate on building a long-term partnership

CERTIFICATION

Our Products are certified by TUV(Germany), CE, SAA, IEC, CB, international certification

DELIVERY

Products are exported to more than 150 countries and delivery fast

OUR ADVANTAGES

Building up the global sales network organization to ensure convenient and best products and service for our customers

OUR COMPANY

Suntree Electric Group Co., Ltd. is a leading global provider of solar energy and electric vehicle charger system supplier since 2007.

Mainly focuses on three sectors: "New Energy", "Smart Electricity" and "Power Grid"; Committed to providing a one-stop solution for solar system protection; Among six main brands of Suntree Group, Suntree, Shanghai Suntree and Nudy are most highlighted.

Set an extensive global network in more than 110 countries and regions, especially the Swedish distributor who has 24 branches and offices.

Bring solutions to more than 3000 customers, achieve business growth by 20%. Since Suntree Electric Group was founded, we have never stopped exploring the balance between human, nature and technology, and we have brought safe electricity to the ones you loved.

OUR TEAM

Professional . Solidarity
Principled . Be imaginative

We established a very professional team. Each of our colleague can provide you best service. If you have any question please contact us.

Our team adheres to the principle of good faith, standard and high efficiency, obtains the reputation by the high quality service, and whole-heartedly provides the high quality solution for the general customers.

7KW MINI EV CHARGER

- European standard TYPE 2
- American standard TYPE 1

Product function

Note: 4G module/Ethernet (network cable) function can be optional, scan the code to charge, scan the code to pay, contact our company (or the customer's designated platform) Mobile APP to check charging information, etc.

-  With swipe card start and remote stop start, with rechargeable IC card.
-  Convenient charging, plug and play.
-  With overload protection, over voltage protection, under voltage protection, short circuit protection, over temperature protection, emergency stop and other functions.
-  Appointment charging function, can be charged according to the user's demand, full automatic end.
-  History record function can query historical charging records and expense records.
-  Waterproof rating up to IP55, has strong waterproof performance, can choose to install outdoors, and can be used safely.

BASIC PARAMETERS

Parameter	
Working voltage	AC 230V(L1+N+PE)

XC-AC3K01

3.5KW/7KW

PORTABLE EV CHARGER

- European standard TYPE 2
- American standard TYPE 1

Product function

Temperature detection function:

The working temperature of the charger can be monitored at any time. Once the safe temperature is exceeded, the charging pile will stop working and automatically resume charging when the temperature returns to normal

The smart chip can automatically fix common charging errors to ensure the stable operation of the product

The power switch:

The rated power can be switched freely by pressing the button

2.8-inch display screen:

Large screen could display charging data.

Installation Steps

1. Insert the charging input to the power supply

2. Insert the charging plug to the charging port

3. E-cars are in normal charging state

4. After charging, pull out the charging plug

5. Unplug the charging input

6. Tidy up and put in the bags

Dimension

BASIC PARAMETERS	
Input/Output Voltage	AC100-240V
Operating current	0-16A(3.5KW) / 0-32A(7KW)
Rated power	3.5KW/7KW
Frequency	50/60Hz
IP Degree	IP65
Product size	235*92*53mm
Working Temperature	-30~50°C
Ambient Humidity	0-95% RH
Elevation	<2000m

14KW/22KW

XCAC14K-32

DUAL OUTLET EV CHARGER

MODEL NUMBER

EV Charger Model

XC	AC	14K	—	32

SUNTREE	AC: 220V	7: 7KW 14: 14KW 22: 22KW		32: 32A 64: 64A

PRODUCT ADVANTAGES

- Automatically full: During the charging process, the charging pile can automatically complete the charging process according to the vehicle charging information.
 - It communicates with the back-end monitoring system of the charging station through GPRS, uploads the working status of the charging pile, working parameters, and fault alarm information, and accepts control commands from the monitoring system to perform a remote operation.
 - It can accurately estimate the connection status of the charging pile connector and the EV connector. When the charging connector is properly connected to the electric vehicle, the charging pile is allowed to start the charging process.
- When the charging post detects that it is not properly connected to the electric vehicle, it can stop charging immediately and send an alarm message.
- Optional resistive touch screen, displaying clear and complete characters without defects, and can be recognized without relying on ambient light.
 - It has a perfect charging protection function to prevent overcharging of the vehicle with high safety.
 - With lightning protection, leakage, short-circuit, over-current, over-temperature and other protection measures.
 - With protection functions such as input over/under voltage, connection abnormality, and emergency stop.

ELECTRICAL TECHNICAL REFERENCE

1. Input characteristics		
Input voltage	176 ~ 264VAC	380VAC
Input current	≤64A	
Frequency	45Hz ~ 65Hz	
Power factor	>0.99	
Input method:1-phase 3-wire	1-phase 3-wire (L+N+PE)	
2. Output characteristics		
Rated output voltage	220VAC	380VAC
Rated output current	32A×2	32A×2
Rated output power	7Kw×2	11Kw×2
Efficiency	≥99%	
3. Charging configuration and protection features		
Charging mode	"Auto-fill mode", "Time model", "Power mode", "Amount model"	
Starting mode	Password startup/card startup/scan code startup	
Display interface	Non-touch black and white display / 4.3-inch touch display	
Operation method	Swipe card (scan code) button operation/touch screen operation	
IP code	IP54	
Standby power consumption	7W	
Charging port	Single gun charging, GB/T 20234.1-2015	
Length of charging gun	Standard configuration: 3M Optional: 4M, 5M, 8M, or 10M	
Extension interface	Optional: GPRS	
Protection function	Input over/under voltage, output over voltage, over current, short circuit, power leakage, lightning protection, emergency stop	
Lightning protection	Class C lightning strike protection device	
4. Environmental features		
Ambient temperature	-20°C ~ +50°C	
Storage temperature	-40 ~ +70°C	
Relative humidity	Daily average humidity is not more than 95%, monthly average humidity is not more than 90%	
Highest Altitude	≤6000m (more than 3000m need to be used at a reduced rate)	
Noise	≤40dB	
Heat-dissipating method	Natural cooling	
5. Mechanical properties		
Dimension (W*D*H) (mm)	300*113*415	
Weight (KG)	14

EV Charger

EV Charger

Product Application

AEA Series EV chargers have an IP65 patented design case for outdoor and indoor use.

The type 2 (IEC 62196-2) charging connector makes highly flexible and compatible with all electric vehicles.

Plug and start to charge automatic. (RFID card for option)

The EV charger output power can be adjusted from 6A all the way up to 32A.

DLB for PV and homeuse

EV Charger

Functions Explain

Dynamic Load Balancing

- DLB (Dynamic Load Balancing) is available in the AEA series AC EV Charger for home use, when the EV charger is working with other household appliances at the same time, the DLB box can maintain the dynamic balance of the total household current and ensure the safety of electricity to avoid home over load.
- Set the Max current value of the main line on the DLB box. The charger will read this current value and automatically adjust the charging current (6A-32A) according to the idle load quota, so that the total household current will not be overloaded due to charging. This function can effectively use the power supply without providing additional power for the charging or home line update.

RFID(Radio Frequency Identification Card)

RFID card reader enabled to start up charging function while approaching the swipe area.

Smart APP

- The EV charger can be controlled by smart APP via WIFI or bluetooth connection;
- One to one binding EV charger by reset the password, prevent the EV charger being stolen;
- View charging data and status;
- Set up various charging configurations, charging current,DLB mode,etc. Scheduled charging;
- View historical charging records;
- Setting monthly maximum charging values;
- Hardware update.

3IN1 SMART DC EV CHARGER

3IN1

- The Special Replaceable Socket Can Realize Multi Charging Of One Machine. By Replacing The Charging Gun, Can Change Free between ccs/ chademo/gbt, realize one Machine Can charge All over the world.
- High Protection Level Ip44, Can Be Used Outdoors Without Fear Of Wind And Rain
- Anti-collision Grade Ik8, Not Afraid Of External Force Collision.
- Ce Certification, Safe And Reliable.
- 4.3inch Touchable Screen, Intelligent Human-machine Interface.
- Can Equip With Ocpp Function, Remote Control, Reservation Charging, Payment Charging And More functions etc.
- Multi Network Connection Method: Lan/wifi/4g Module.

Heavy duty connector Replaceable charging gun of different standard

- Replaceable socket/replacement charging gun
- Realize CCS/CHADEMO/GBT Freeswitching
- All at once

MAIN PARAMETER

Model	XC97SADMSW-AEG	XC415SADMXM-AEG	XC420SADMXM-AEG	XC430SADMXM-AEG	XC440SADMXM-AEG
Input voltage	90-265V	260-475V			
Input Connection	L+N+PE	3P+N+PE			
Input Current	32A	25A	32A	45A	64A
Frequency	50/60Hz				
Power Factor	> 0.99@FULL LOAD				
Efficiency	95%				
Output Voltage	200-750V (200-1000V optional)				
Output Power	7KW	15KW	20KW	30KW	40KW
Output Current	20A	25A/37A	33A/60A	50A/100A	66A/120A
TFT-LCD Touch Panel	4.3-inch display				
Auxiliary source	12V(24V optional)				
Dimension(mm)	635×295×500				
Weight	20KG	25KG	40KG	50KG	60KG
Operating Temperature	-20°C~+50°C				
Altitude	2000M				
IP LEVEL	Ip44				
ANTI-COLLISION CLASS	IK8Up				
Input cable length	3M (CUSTOMIZED ACCEPTABLE)				
Gun cable Length	5M(CUSTOMIZED ACCEPTABLE)				
Applicable standard	GBT20234 / EN62196 / EN61851-1, JEVSG 105 / CHADEMO				
Communication protocol	GBT27930/CHADEMO 2.0/DIN 70121, OCPP 1.6 (JSON), ISO 15118				

SC HV SERIES WALL MOUNTED/COLUMN DC CHARGER

Rich configuration

- Home version: It can be configured with plug and charge, swipe card and password, and charge by appointment.
- Online version: swipe card, VIN code, scan code of wechat and Alipay, mobile APP, mini program, etc.
- OCPD can be configured for foreign versions.

Patent design

- Unique patented technology, which can meet the high protection level for outdoor use and make the product loose
- Heat is more efficient and product performance is more stable and reliable.
- Fashion patented appearance design, small and thin products.

Widely used

- Can be used for home or business.
- Moderate charging speed,0.5~2C, ideal charging choice that takes into account charging speed and battery life.
- Can be wall hanging and column, flexible application situation.
- Simple and convenient installation, small impact on the power grid.

Safe and reliable

- Protection grade up to IP54, moisture-proof, water-proof, mildewproof, dustproof and flame retardant.
- With over and under voltage, overload, short circuit, leakage, battery anti-reverse connection and other protection functions.

MAIN PARAMETER

Model	XC97SADMSW-E	XC415SADMSW-E	XC420SADMSW-E	XC430SADMSW-E	XC440SADMSW-E
Input voltage	90-265V	260-475V			
Input Connection	L+N+PE	3P+N+PE			
Input Current	32A	25A	32A	45A	64A
Frequency	50/60Hz				
Power Factor	> 0.99@				
Efficiency	95%				
Output Voltage	200-750V (200-1000V optional)				
Output Power	7KW	15KW	20KW	30KW	40KW
Output Current	20A	25A/37A	33A/60A	50A/100A	133A
TFT-LCD Touch Panel	4.3-inch display				
Auxiliary source	12V(24V optional)				
Dimension(mm)	545x380x170			645x454x170	721x475x232
Weight	20KG	30KG	35KG	45KG	64KG
Operating Temperature	-20°C-50°C(Derating higher than 50°C)				
Altitude	2000M				
IP LEVEL	Ip54				
Humidity	5%-90%RH, no condensation				
Input line length	0M(CUSTOMIZED ACCEPTABLE)				
Gun cable Length	5M(CUSTOMIZED ACCEPTABLE)				
Applicable standard	GBT20234/EN62196/EN61851-1,JEVSG 105/CHADEMO				
Communication protocol	GBT27930/CHADEMO 2.0/DIN 70121,OCPP 1.6 (JSON),ISO 15118				

FC+VC SERIES

Main characteristics

- Low standby power consumption, the standby power consumption of the whole machine is less than 5w, reducing operating costs;
- Wide output voltage range, 200V-750V, applicable to more models;
- Compatible with DC input, wider application scenarios;
- High power density, smaller volume and smaller footprint;
- Reasonable air duct design ensures that the temperature difference between inside and outside the inlet is less than 3 degrees;
- Perfect safety protection, disconnect AC side when emergency stop, more reliable;
- Flexible UI customization, which can customize UI interface style according to customer needs;

Double gun custom combination arbitrary collocation

- Optional screen language interface (China, UK, Russia, France, Germany)
- Connect with the background of cloud fast charging to realize commercial operation
- Connect to OCPP/cloud fast charge
- OEM+ODM
- Support the operation of scanning code and swiping card

MAIN PARAMETER

Model	XC430DADMVS-EJ	XC440DADMVS-EE	XC460DADMVS-EE	XC460DADMFS-EE	XC4120DADMFS-EE	XC4150DADMFS-EE	XC4180DADMFS-EE
In putvoltage	AC380V±20%						
output voltag	200-750V (200-1000V optional)						
Input Current	45A	60A	95A	95A	190A	230A	285A
Output Current	100A	120A	200A	0-200A	0-250A		
Freq uency	40-60Hz						
Rated power	30KW	40KW	60KW	60KW	120KW	150KW	180KW
Gun quantity	2						
Charging way	Quick or Slow charge automatic switch						
charging mode	SWIPE CARD, APP, MANUAL						
Lable leggth	5M						
Interface	7"COLOR TOUCH SCREEN+IC CARD CONTACTLESS CARD READER						
Network con nection	Standard configuration: CAN/485/Ethernet Selective configuration: GPRS/4G
