Hamburg, June 27th, 2024

Sharp Electronics GmbH hereby issues the following declaration of performance for the photovoltaic module NU-JD540.

Module power output (capacity) : 540Watt

Module efficiency: 20.89%

Condition: Standard Test Condition (irradiance 1,000W/m<sup>2</sup>, AM 1.5, cell temperature 25°C)

Performance: 98.0% after 1 year, 85.0% after 25 years

Condition: As shown in the warranty conditions for photovoltaic modules

Other technical parameters: As shown in the technical datasheet and installation manual for this module

Best Regards!
